

CHIKATIMALLA RUTHWIK

PYTHON DEVELOPER | FULL STACK DEVELOPER | AI ENTHUSIAST

chruthwik3@gmail.com | +91 8125639054 | <https://www.linkedin.com/in/ruthwik-chikatimalla-11530033a/>

SUMMARY

Computer Science undergraduate with strong interest in machine learning, data structures, and backend systems. Experienced in building Full Stack applications using Python, JavaScript, React, and Node.js. Currently exploring machine learning models including Linear Regression, Logistic Regression, and SVM for real-world applications.

PROJECTS

Medigen – AI-Powered Pharmacy Web Application

[Live Demo](#)

- User authentication and role-based admin access
- AI chatbot integration using Google Gemini API
- Prescription scanning and medicine identification
- Shopping cart and checkout functionality
- Order tracking and saved medicines feature
- Admin dashboard for medicine management
- Email notification service integration

NewsFeed – Python Desktop News Application

[Live Demo](#)

- User login and registration system using SQLite
- Real-time news fetching via NewsAPI
- Image display with fallback handling for missing images
- Voice-assisted news reading using text-to-speech
- Article navigation with Next/Previous functionality
- Option to open full news articles in the browser

SteganoPro – Python Desktop Steganography Application

[Live Demo](#)

- Securely hides secret messages inside images
- Extracts hidden messages from encoded images
- Supports common image formats like PNG and JPG
- Provides optional password protection for added security
- User-friendly interface built with Tkinter
- Fast and efficient encoding and decoding process
- Easy file handling for loading and saving images

KEY SKILLS

- **Languages** C, Python, Java, Javascript
- **Frontend:** React.js, HTML, CSS
- **Backend:** Node.js, Express.js
- **Database:** SQL, MongoDB
- **Core CS:** DBMS, Operating Systems, OOP
- **Tools:** Git, GitHub, VS Code
- **GitHub:** <https://github.com/ruthwik21ch>

EXPERIENCE

Python Intern (Virtual Internship) – Happieloop

Certificate

- Developed a weather application using Python and external weather APIs to provide real-time weather information.
- Applied API integration, object-oriented programming, and user interface development concepts.
- Successfully completed assigned projects and deliverables in a remote work environment.

AI Intern (Virtual Internship) – CodSoft

Certificate

- Developed a rule-based chatbot in Python for interactive user communication and automated responses.
- Designed and implemented a Tic-Tac-Toe game with Easy, Medium, and Hard difficulty levels using decision-making algorithms and game logic.
- Built an AI-powered image captioning system utilizing computer vision and deep learning techniques to generate image descriptions.
- Applied Python programming, artificial intelligence, and problem-solving skills to develop and optimize project solutions.
- Delivered internship projects within specified timelines while collaborating in a virtual environment.

EDUCATION

Bachelor of Technology

2023 - 2027

Sree Chaitanya College of Engineering

- Computer Science and Engineering
- CGPA: 7.85 (Pursuing)

2021 - 2023

Intermediate (MPC)

Vivekananda Junior College

- Percentage : 81.2

2021

Secondary Education

Kerala Model School

- GPA : 10

ACHIEVEMENTS

- Participated – Think X Hackathon
- Participated – Devnovate Hackathon
- Best Performance Certificate – College Coding Competition

CERTIFICATIONS

- AI Course in Yuva AI for All
- AI-Data Scientist in TBOCWBB
- CyberWalNet Certificate in Cyber Awareness & Digital Hygiene
- Python Intern at Happieloop
- AI Intern at CodSoft
